SECTION 4 : FIRST AID MEASURES

4.1 General information :

All cases of eye contamination, persistent skin irritation and casualties who have swallowed this substance or been affected by breathing its vapors should be seen by a doctor.

4.2 Following inhalation : Supply fresh air and to be sure call for a doctor. In case of unconsciousness place patient stably in side position for transportation.

4.3 Following skin contact : Remove affected person from source of contamination. Immediately remove all contaminated clothing, including footwear. Flush skin and hair with running water. Seek medical attention in event of irritation.

4.4 Following eye contact : Wash out immediately with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids. Removal of contact lenses after an eye injury should only be undertaken by skilled personnel. Contact physician if Irritation persists

4.5 Following ingestion : Remove victim immediately from source . Provide rest, warmth and fresh air. If swallowed do NOT induce vomiting. If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration. Observe the patient carefully. Never give liquid to a person showing signs of being sleepy or with reduced awareness; i.e. becoming unconscious. Obtain medical attention.

4.6 Notes for the doctor : Treat symptomatically.
